recorded: song of Bougainville Thicketbird

Bougainville Thicketbird *Cincloramphus llaeae* © Julien Mazenauer

XC944072 0:00 0:11

Bougainville Thicketbird *Cincloramphus llaeae* · song
Julien Mazenauer

Until recently, the song of the Bougainville Thicketbird *Cincloramphus llaeae* was unknown, or at least it had never been recorded. During a trip that they lead for Ornithological Expeditions Julien Mazenauer and Joshua Bergmark managed to record it. One species less on "Shaun's list", the list kept by Shaun Peters on XC highlighting birds whose sound have never been recorded! Rob Gordijn has added another recording, a very nice one. Do check them out.

Recordings of Crows from Around the World

How to use this app:
This app pulls data from the public API, xeno-canto, on birds of Order: Passeriformes, Family: Corvidae (Crows, Jays), Genus and/or season, and predict species using the Random Forest model. Sort the data tables by clicking the arrows next to each column header.

Select Country: Select Season: Predict Species
